DETAILED ACTION

1. This office action is in response to communication filed on 10/12/2005.
2. Applicant elected Group I, consisting of claims 1-2, 5-6 and 9-10.
3. Applicant is reminded that claims not elected are presumed withdrawn and they should include a status identifier, in parentheses, following each claim number See 37 CFR 1.121.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2, 5-6 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakamura (5,987,424 hereinafter Nakamura).

With respect to claims 1, 5, 9 Nakamura teaches an advertisement system (Abstract). A portable telephone communication terminal capable of communicating with other portable communication terminals utilizing a display on said portable communication terminal, and capable of displaying an advertisement on said display when said display is operating in a stand by mode (see step 206); a terminal management device for managing said portable telephone communication terminal (exchange 4); an advertisement broadcast device for storing advertisement data provided by an advertisement broadcaster (see figure 2); notification means for, when a registration request including first information representing that said portable telephone

Art Unit: 3622

communication terminal is an advertisement display terminal and a second information representing an advertisement broadcaster designated by said portable telephone communication terminal is issued by said portable telephone communication terminal, notifying said advertisement broadcaster device of the registration request including the first information in accordance with the second information (i.e. the subscriber registers to receive the advertisement from an issuer)(steps 1301 and 1302); registration means for registering the first information and the second information when said advertisement broadcast device send registration acceptance in response to the registration request notification from said notification means (see 1301 and 1302); display control means for, when advertisement data is received from said advertisement broadcast device which is a registration acceptance notification source, transmitting the received advertisement data to said portable telephone communication terminal on the basis of the registered first information and the registered second information, and displaying the advertisement data display of said portable telephone communication terminal (see Figure 14).

With respect to claims 2, 6, 10, Nakamura further teaches that when a registration cancel request for said portable telephone communication terminal is issued, said registration means cancels registration of the first information and the second information, and said notification means notifies said advertisement broadcast device of cancellation of registration of said portable telephone communication terminal (1303 and 1304).
